

Batería de Litio 12.8V 100Ah Marine Edition

According to UN 3480, CLASS

Electrical specification

Voltage:	12V
Capacity:	100 Ah
Recommended Charge Current	5 A - 50 A
Maximum Charge Current	50 A

Mechanical specification

Dimensional group:	L05
Maximum Modules in Series / parallel	4
Recommended Charge Voltage	14.2 V - 14.6 V
Dimensions (LxWxH):	352x174x190
Cell Layout:	0
Terminal Type:	1 - M8

Container

Case	Capacity 25A	240 min
	Bottom hold-down	B13
	Colour	Black
Vent caps	Material	ABS
	Type	LiFePO4
	Colour	Black

Lid	Efficiency	99%
	BMS	BMS
	Colour	Black
Handles	Material	ABS
	Position	Top
	Colour	Black

Battery classification as per UN 3480, CLASS 9

BMS High Cut-Off	Reconnect Temperature	Vibration resistance	Endurance Level
80 °C	50 °C	V2	E2

Weight

Battery weight:	10.5
Terminal Type:	1-M8
Total battery weight:	10.5
